At end of the period	**24,174**	**21,626**

Explanatory notes: *These results are extracted from the consolidated financial statements of Bamburi Cement Limited for the year ended 31 December 2011. The financial statements were audited by Deloitte & Touche, and have received an unqualified opinion.*

HIGHLIGHTS

The Group's turnover increased by 28% to KShs 35.9 billion, driven by increased domestic and export volumes from the new line in Uganda and optimization of existing capacity across all plants. The year was also characterised by stable domestic prices and better export prices, due to the appreciation of the US dollar.

Operating profit grew by 9% to KShs. 7.9 billion, notwithstanding the growth in turnover, due to a difficult external cost environment brought about by high global fuel prices, increase in power costs, high inflation, local currency depreciation and increased competition.

Pre-tax profit increased by 12% to KShs. 8.5 billion shored up by gains on cash deposits and exchange gains on foreign currency cash balances, partially eroded by higher loan financing costs in Uganda, on account of high interest rate regime in the second half of the year.

The Group continues to focus on working capital management to optimize its cash position.

2012 OUTLOOK

The Group remains cautious on the local and global macroeconomic environment for 2012. While early positive signs are starting to develop in the United States economy, sovereign debt concerns in the Eurozone, political instability in the Middle East, cost inflation in developing markets, and uncertain political environment in Kenya continue to make visibility difficult.

The Group remains committed to contributing to the growth of the Eastern Africa economy. The new investment in Uganda and recent expansion of its downstream business has reinforced the Group's position as the regional market leader.

The Group is well positioned to grow its footprint in the region and will focus on key strategic priorities, namely customer service and industrial excellence, strong brand equity, cost leadership, working capital optimization and a committed work force to realize its vision.

DIVIDEND

An interim dividend of KShs. 2.00/= per ordinary share amounting to KShs. 726 Million was paid on 20 October 2011.

The Directors recommend payment of a final dividend of KShs. 8.00/= per ordinary share (KShs. 7.00/= per ordinary share in 2010) subject to approval by shareholders at the Annual General Meeting. The final dividend, when added to the interim dividend already paid, brings the total dividend for the year to KShs. 3,629 Million (KShs. 3,085 Million in 2010).

Closure of Share Register
Subject to approval by the Shareholders at the Annual General Meeting, the final dividend for 2011 will be paid on or about 15 June 2012 to members on the register at close of business on 23 March 2012. Accordingly, the register of members will close at 4.30pm on 23 March 2012 and will remain closed up to 26 March 2012.

CHANGE IN DIRECTORSHIP

Following reorganization within the Lafarge Group, John Stull resigns as a director of the Company with immediate effect.

By Order of the Board,
Hussein Mansi,
Managing Director
23rd February 2012
